PRESENTATION.—We feel much pleasure in recording a very pleasant incident that occurred on Sunday. Messrs Hillier & Thayer, friends of Mr. McCluskey, gave that gentleman a very substantial token of the kindness and esteem they feel for him as a friend, and the respect in which they hold his manly and straightforward character. We were present on the interesting occasion, when Mr. Thayer, with some very neat and appropriate words, on behalf of himself and Mr. Hillier, presented Mr. McCluskey with a very handsome gold watch and chain. Mr. McCluskey, who was unaffectedly surprised, accepted the costly gift with deeply felt and earnest thanks. In a few words, that betrayed how much he was affected with the testimony of the regard of his friends, he expressed his sense of their kindness and determination to do all in his power to continue and preserve the friendship which had so long mutually existed between them. The party of friends afterwards partook of a splendid lunch, when, over some generous wine, mutual good wishes were interchanged. For our own part, we sincerely hope that the hands of the splendid gift bestowed on Mr. McCluskey by his friends, may never point to the hour of adversity for him or for them.

THE STOCK MARKET in San Francisco yesterday seems to have been stirred somewhat from the late apathy. Meadow Valley rose from 25½, the closing price on Saturday, to 28¼ at the close yesterday. The "bears" may grow as much as they please, but the steady outflow of bullion from the Pioche mines is a heavier burden than they will be able to carry. Fisk remarked that the "bulls" of the gold market could not withstand the weight of the gold in the U. S. Treasury however easily they could carry the phantom gold of Wall street. So with the San Francisco stock market. They may squeeze and growl as much as they please, but they will find it no easy task to persuade the public that our mines are but of little value when the tangible evidence of their worth is made potent by the unflinching yield of bullion. The proof of the pudding is in the eating, and when mines are constantly paying dividends instead of demanding assessments, the public at large will not be apt to pay much attention to the California street cliques, keen and knowing as they are.

CLANING UP.—We were much gratified yesterday to see that the streets of Pioche are about to be cleared of the litter, rubbish and loose rocks that have so long disfigured them. We shall be glad to bid a long farewell to the piles of waste paper, old boots, rags, broken boxes and shavings that have accumulated along our thoroughfares. When one of those delightful Washoe zephyrs, as Mark Twain christened them, wing their gentle passage down Main street the eyes of the passers are not only filled with dust, but paper, old socks, rags and straw fly round in the most admirable confusion. The dust will have to be put up with, we suppose, but the other nuisances can and ought to be prevented.

STARTED UP.—The Meadow Valley Company's mill started up last evening at six o'clock. Mr. Maynard, the indefatigable Superintendent, expects to keep the mill constantly running to its full capacity. This will be good news for the shareholders, who may now indulge in the pleasurable anticipation of the receipt of dividends. Under the present energetic and economical management the Meadow Valley will certainly take the prominent position the undoubted value of its claims so well entitle it.

A FALSE ALARM was sounded yesterday. In the forenoon a huge volume of smoke was observed to issue from one of the stovepipes of Lagune's restaurant. In a minute or two the streets were black with people, hastening to the supposed scene of destruction, and the Hook and Ladder and Hose Companies also came dashing through the throng. But all the trouble and excitement were utterly thrown away, for it turned out that it was merely the accumulation of soot in the pipe, the burning of which caused the emission of so much smoke.

THE SPRING at the back of the Court House is still "an object of interest" and also dispute. Some citizens assembled at the place on Sunday with the avowed object of preventing an enclosure being placed round the spring. Nothing was however done, though we understand some digging is contemplated near by with a view to tap the coveted fluid.

RETURNED.—We are glad to notice the return of Capt. T. J. Messie, who paid a flying visit to the Bay City. The Captain is looking well and as we remarked, on shaking hands with him yesterday afternoon, he looks scarcely older than when we first knew him ten years since.

AN EXTRA stage arrived last evening from Hamilton, bringing freight and baggage, but no passengers.

REGISTERED.—Nearly 1,140 names are entered on the Register's books.

DISTRICT COURT.—State vs. M. Dolan: Defendant admitted to bail in the sum of \$5000. State vs. Fuller: continued to this day. State vs. Whalen: bail reduced to \$500. State vs. S. C. Phillips: Attorney filed nol. pros. State vs. Garratt—two indictments: in one case nol. pros. was entered; in the other defendant pleaded guilty and was ordered to appear for sentence October 17. Langford vs. Langford—suit for divorce: Decree was ordered to be entered granting the prayer of the plaintiff. An order was made continuing all jury cases until Nov. 11. An order was also made excusing all trial jurors until further notice. The following persons were admitted to citizenship: Ramon Robles, Mexico; James Landey, Ireland; Hugh Murphy, Ireland; Chas. Canning, England; M. McGonnyal, Ireland; Jas. Hickey, Ireland; Wm. Hall, England; Frank Wetty, Germany; Emmet Keenan, Ireland; Hy. Thomas, England.

A FIRE occurred on Sunday evening which destroyed a miner's cabin situated on the hill below the Meadow Valley Company's works. The fire originated from a candle that had been left lighted by the absent occupants, burning down and setting fire to the woodwork on which it was placed. The damage was not great, but was by no means welcome to the men who were living in the cabin. On the alarm being sounded the Fire Companies turned out with their promptness that is instinctive with true firemen. The two companies included in their muster roll some old hands that originally donned the red shirt for no holiday purpose, and many a time have done good service in the preservation of life and property.

ARRESTED.—M. Dolan against whom an indictment for murder is pending, arrived here on Sunday from Salt Lake. We understand that Dolan returned hither from his home in Connecticut for the purpose of standing his trial on the charge above named. On alighting from the stage he was arrested and placed in jail. Yesterday the cause was brought before the District Court, and Dolan was let to bail in the sum of \$5000.

TEN PINS.—Those who delight in this amusement will shortly have an opportunity of trying their skill. Messrs. Danner & Pierson are having the ground at the back of their saloon excavated, for the purpose of building a fine double alley.

TOWNSHIP REPUBLICAN CONVENTION.—This Pioche delegation to the late Republican County Convention, met yesterday at the Court House and nominated Mr. J. C. Foster for Justice of the Peace and D. James, Constable, for Pioche Township.

JUSTICE'S COURT.—Morris Polley was brought before Justice Stoutenburgh on a charge of stealing from teamsters. There not being sufficient evidence to hold the defendant, he was discharged.

BOARD OF EQUALIZATION.—On Saturday Mr. Wm. McKee was appointed Road Supervisor. The Board was in session yesterday, but transacted no business of an important character.

TO CITY SUBSCRIBERS.—Owing to the temporary illness of our carrier, accounts for papers served by him will not be presented before Monday next.

D. A. FULKS, of Fulk & McAlpin, is our candidate for County Commissioner, and we have reason to believe that his friends will stand in and make his election sure.

INDEPENDENT.—Mr. Wm. P. Retallack announces himself as an independent candidate for the Assembly.

SPEAKING.—Gov. Woods, of Utah, is to speak a piece to the Radical side of the house this evening.

CIRCULATING LIBRARY.—Folk & Levin on Main street have just received the latest and best publications at their extensive circulating library, and they offer it to the public at 25 cents per volume. Call and see them.

AT BURRAGE'S Drug Store, Main street, directly opposite Lacour street, is the largest and best assortment of pure drugs and patent medicines; also perfumery, fancy goods, paints, oils, turpentine, lamp chimneys, etc.

NEW GOODS.—Gray Peruvian Chin-chilla Suits; English Derby Corduroy Suits; Knickerbocker Fur Coats; all just received and will be offered cheap by the Pioneer firm.

JOSEPH POTTS, says the White Pine News of October 4th, the energetic Superintendent of the Eberhardt and Aurora Company, last week received a patent from Washington for an improved apparatus by which quicksilver and amalgam are saved by the use of galvanic and electric batteries. One of these copper boxes, with zinc plate underneath the cover and a combination of rifles, was tested in the International Mill previous to its destruction by fire, and resulted in a saving of about fifty pounds of quicksilver per week, and amalgam in proportion, from one agitator, working one-third of the tailings of the mill. Potts intends to introduce his apparatus in all the mills in this vicinity and throughout the State as soon as possible; and no doubt it will prove profitable to the mills and pay for itself in a very short time.

SILVER WEST FURNACE.—This furnace has now been running continuously for over thirty days, and the daily average of ore smelted has been over forty-eight tons. The average value of the bullion has been \$305 per ton. In this district, where smelting has been more successful than at any other place in America, this is unprecedented with a single furnace, and gives to the Silver West the title of chief of them all.

IT IS SAID that Professor Agassiz will stop for a few days at Truckee to make an examination of the fish in the river of that name, and then will visit Tahoe and Pyramid Lakes for a similar purpose.

NEWS ITEMS.

A gas well has been discovered at Salt Lake City, Cal.

A delegation of the Utes Indians are about to start for Washington from Salt Lake.

The Printer's Greeley Club, San Francisco, are rendering effective service in the cause of Reform.

Esmeralda county will on the 5th of November, elect a State Senator to fill the vacancy caused by the death of Hon. W. M. Boring.

The Carson State Register says that the Treasurer of Lincoln county yesterday paid into the State Treasury \$5,000 on State account.

There were snipped East by the Central Pacific Railroad, Saturday the 5th, three car loads of seal, three of seal skins and eighteen of seal.

The State Register says acting Governor Denver, on Saturday last, appointed Edward Bissell, a Commissioner of Deeds, for the State of Nevada, to reside in New York City.

The Carson State Register of the 8th, has the following: The Pioche Review says that Judge Garber has resigned his position on the Supreme Bench of this State. The Review is mistaken. Judge Garber has no intention of resigning. The Review must be hard up for news, when it has to resort to circulating falsehoods.

The Elko Independent says that work will shortly be commenced on the coal mine near Corbin, discovered by John Q. Moore, in 1869. Mr. M. has succeeded in getting a company to take hold of the mine, and as experts pronounce it a flattering prospect, we expect to hear favorable accounts from it.

The Carson Appeal says that a coalition of capitalists have taken hold of this mine and will help Mr. Moore to develop it.

KENDALL AND GOODWIN.—A Carson dispatch of the 10th says: The campaign was fairly inaugurated last night at Genoa. Kendall and Goodwin met for the first time on the stump. They spoke to a large audience, and there was much enthusiasm for Kendall, who, it is conceded by everybody, got the best of the discussion. Goodwin seemed greatly discouraged when he found that the tide of public opinion was so strong for Kendall. They speak to-night at Reno.

The Reno dispatch of the 10th says: The Liberal County Convention assembled here to-day. Jo. Jones was nominated for Sheriff. The other nominations were deferred until to-morrow, to which time the Convention adjourned.

Kendall and Goodwin are speaking here this evening. There is the wildest enthusiasm for Kendall. Goodwin is coldly received at his old home. They depart for the eastern part of the State to-morrow.

GOOSE CREEK MINING DISTRICT.—The Utah Mining Journal says: We learn that many prospectors are arriving there and work is being pushed on the locations already made. Harkins, Hawkins & Co. have located four leads called the Defiance, Silver Measure, Monster and Alta, all well defined free milling lodes, the lowest assay of croppings of which was \$125, and the highest \$1,554. The lodes are more than ten feet wide and can be followed for a long distance. Work is being vigorously prosecuted on all of them.

The mines of the Ogden Gold and Silver mining Co. are being worked vigorously. It is determined to put up a 20-stamp mill at the camp this winter. A daily stage is running regularly from Teocoma to the camp, and it is well patronized. Many capitalists are already on the ground. New discoveries are daily made in the neighborhood of the camp, and no doubt is expressed as to the future.

SHIPWRECK.—A letter received here states that the ship Golden Hind of this city was lost June 24, about ten miles north of Cape Gloucester, Charles Island. The crew took the boats in charge of the captain and the two mates. The boat in charge of the second mate with six seamen has not been heard from since, and it is supposed to have been swamped. Soon after leaving the ship the captain's boat capsized, and the compass with all the provisions and clothing were lost. They finally landed on a desolate island where five of the crew died from starvation, and from which the remainder were rescued on the 10th of August by the schooner Eagle of Falkland Islands. When taken off they were hardly able to stand.—Boston, Oct. 8th.

LOST.—A young lady was recently lost at Reno and was not found until two o'clock the next morning. The Gold Hill News says: People are at a loss to decide whether it was owing to the great size of the town she was lost, or whether she got outside and lost the town.

New hoisting works are to be erected at Virginia, on the Consolidated Virginia Mine Company's mine.

ROOFING!

THE UNDERSIGNED IS PREPARED TO furnish the people of Eastern Nevada with Asbestos, Tin & Felt Roofing

H. W. Johns' Asbestos is recommended by leading builders in the Eastern States to be superior to either tin or shingles, as it neither expands or contracts by heat or cold, and is practically fire and water-proof. It is 30 inches wide, and is easily applied by any one.

From Report Judges American Institute Exhibition of 1870:

H. W. Johns' IMPROVED ROOFING—"Is strong and flexible, unaffected by the sun's heat; practically fireproof, and is really an article of the first order of merit." Signed,

HORACE GREELEY, Pres't.

JOHN W. CHAMBERS, Rec. Sec'y.

SAM'L D. TILLMAN, Cor. Sec'y.

Report of Judges American Institute, 1871.

"These materials prove, by their general use and test of time, to answer their purpose fully." "The Best Article in the market." Signed,

W. B. OGDEN, Pres't.

JOHN W. CHAMBERS, Rec. Sec'y.

SAM'L D. TILLMAN, Cor. Sec'y.

This roofing is particularly adapted to mills and furnaces, as it is acid proof, and does not sweat or rust.

Also Asbestos roof paint and cement.

Canvas roofs made perfectly water-tight, by Asbestos Cement.

Also, Asbestos roof paint, to be used on Asbestos, tin or shingles; and Asbestos Cement for bad leaks, just or nail holes in tin before painting.

TIN ROOFING done up in neat bundles of 100 feet, in sheets 10 feet in length, sent with proper directions to any part of Eastern Nevada.

Also, common felt for sheds and other cheap, flat-roofed buildings.

Send exact measurement of building over all, and all roofs will be guaranteed to fit.

C. B. LOVELL,

Agent for Eastern Nevada.

Pioche, August 20, 1872.
